

Renewable Grid-Based Electricity Generation Capacity

Installed as of 2003 (megawatts)

Technology	World – all countries	Developing countries
Small hydropower	56,000	33,000
Wind power	40,000	3,100
Biomass power	35,000	18,000
Geothermal power	8,800	4,100
Solar thermal power	350	0
Solar photovoltaic power (grid)	1,100	0
Total renewable power capacity	142,000	58,000
<i>For comparison:</i>		
Large hydropower	730,000	340,000
Total electric power capacity	3,700,000	1,300,000
